RIDE 70 · MOAB, UTAH · INTERMEDIATE ·

Dino Descent

Agate out from the north lot, EKG up toward the bluffs, then Dino-Flow all the way back down.

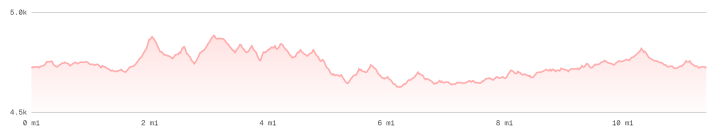

Good to ride today. High 55°F, dry trail.

⚠ **Not yet ridden by us.** This line was routed from OpenStreetMap trail data and hasn't been ridden end to end yet. Trail access and direction can change: check posted signs and the land manager before you ride.

GETTING THERE

Park at Klondike Bluffs North Trailhead

Signed off US-191, about 21 mi north of the Colorado River bridge, Moab, UT 84532

- BLM trailhead, signed from the highway. No fee to ride the Klondike Bluffs trails (BLM). No water.
- Start and finish are the same spot. Follow the cue sheet and the arrows on the map.

CUE SHEET

11.9	Back at Klondike Bluffs North Trailhead	

KNOW BEFORE YOU GO

- Climb EKG, descend Dino-Flow. BLM says every Klondike trail is open both ways but some are signed for downhill travel; if a junction sign says otherwise, follow the sign.
- Arches National Park is right next door and bikes are not allowed on its trails. Turn around at the park boundary signs.
- No shade and no water. BLM asks riders to skip these trails when they are muddy.
- Signs and maps are posted at every junction (BLM). Carry the BLM Klondike map anyway.

RIDE SMART

- **Water:** plan on about 1.5 L for this ride. There's none on the trail.
- **Signal is spotty.** Tell someone your route and your time back.
- **Emergency:** call 911 and say "Dino Descent ride, parked at Klondike Bluffs North Trailhead, Moab, Utah", plus the coordinates from Locate me.
- **Wildlife:** give horses, burros and anything with horns room, and never feed them.
- **Stay on trail.** Desert crust and mountain soil take decades to heal.
